National Risk Solutions, NRS, is the next generation wholesaler. Our business model is based on technology, service and sales as opposed to being just an underwriting agency.

We created a business model where our people are focused on sales and service. You can eliminate the cumbersome wait process most common in the wholesale marketplace.

We use technology to bring you direct to the market through our on-line quoting systems. You can obtain a quote when you want it and when you need it - whether it's on line, over the phone or real time web-chat - We never close!

Service is an overused word. People talk about great service but do not define what it really means to you.

We define **great** service as:

- 24 hour response when the business cannot be quoted on-line
- Phone calls/emails returned the same day
- Renewal quotes within 45 days of expiration
- Policies issued within 5 days of binding
- Same day binding
- One source for all your personal and commercial lines products.

In addition, NRS has a dedicated Customer Service Center to support our on-line homeowners programs. All claims, billing, endorsements and underwriting questions can be handled with just one call.
