- * The age of roof at the time of loss is determined using the roof year shown in the most recent Property Detail Page that accompanies the Declarations. If the loss is to “roof system(s)” of other structures located on the residence premises and covered under Coverage **B- Other Structures**, the applicable percentage in the Roof Systems Payment Schedule will be based on the other structure’s age of roof at the time of loss.
- ** If two or more roof surfacing material types are present on a structure’s “roof”, the dominant roof material is used to rate your policy, which is shown in the most recent Property Detail Page that accompanies the Declarations. If the loss is to “roof system(s)” of other structures located on the residence premises and covered under Coverage **B- Other Structures**, the applicable percentage in the Roof Systems Payment Schedule will be based on the other structure’s dominant roof material at the time of loss.
